Mandatory Reporting Project

Learner Analysis

CONTEXT & PERSONA BACKGROUND

The personas for this assignment were derived from teachers working at a real online high school in Colorado—a hybrid school supporting historically underserved high school students. The primary focus of this organization is to develop productive members of society by helping all students achieve their full potential in a caring, supportive, and personalized environment. To determine learner personas for this assignment, I drew on my personal experience working with teachers as an instructional coach at this high school. I utilized existing data and AI to identify the three most common learner personas in this population.

IDENTIFIED LEARNER PERSONAS

Persona	Characteristics	Core Motivations & Strengths	Primary Friction Points
 Relational Marcus	The Student-Centered Veteran 12+ Years Teaching Experience 2nd Year in Hybrid Model	Driven by personal connections and student growth. Deep expertise in 1-on-1 mentoring, trauma-informed care, and building trust with underserved.	Often struggles with implementing new instructional practices, especially when technology is involved. Prefers not to change his teaching methods but realizes the importance of improving his online courses and leveraging technology when it comes to supporting students.
 Innovative Elena	The Tech-Savvy Digital Native 2nd Year Teaching Overall Early Adopter of Educational Technology	Eager to leverage AI tools, digital dashboards, and gamified content. Quickly creates engaging online materials and analyzes data efficiently.	Can struggle with severe student disengagement, chronic absenteeism, and managing complex emotional/behavioral crises in a hybrid setting.
 Adaptable Sarah	The Alternative Pathway Practitioner 5 Years Industry Experience 1st Year Teaching in Hybrid High School	Brings practical real-world skills and career relevance. High enthusiasm for helping students prepare for post-secondary independence and workforce integration.	Unfamiliar with formal lesson alignment, state academic standards, differentiated learning, and IEP/504 compliance.
