ON-SCREEN TEXT

BASE LAYER: Mandatory Reporting for Online Student Interactions

A Colorado-Aligned Learning Module for K-12 School Staff

INTRO LAYER: A High School Student Just Went Dark Offline...

Their assignments are completely blank.

They stopped turning on their camera.

ADDITIONAL NOTES

Create hover state for START button

Show intro layer, when button is

Text appears as random bars over ~ 8 sec

clicked

USER INTERACTION

Hover state for START button

User clicks START button to advance to the next layer

Slide #: 2 Program: Mandatory Reporting Slide Title: Module Context

USER **SEES**

Laptop icon with message icon inside. Text above it with instructions. Audio icon to the left

USER **HEARS**

In the virtual classroom, child abuse and neglect often leave digital footprints instead of physical markers. In only 30 minutes, you will acquire the exact investigative boundaries and reporting confidence needed to step in and help them. Are you ready to assume your role as a lifeline under Colorado law?

GRAPHIC ASSETS

ON-SCREEN TEXT

Please turn on your audio, then click on the incoming message.

USER **INTERACTION**

Narration plays when user clicks on message

User clicks ARROW button to advance to the next layer

ADDITIONAL **NOTES**

Create pulse emphasis when user hovers over message icon.

Generate audio narration

Audio narration plays when message icon is clicked.

Next arrow appears at completion of audio

Slide #: 3 Program: Mandatory Reporting Slide Title: Module Tutorial

USER **SEES**

Module tutorial layer with text instructions and 4 icons representing module items. Progress bar and menu icon in upper right corner. Three frames surrounding 3 components (progress bar, menu, and 4 icons with text).

USER **HEARS**

none

GRAPHIC ASSETS

ON-SCREEN TEXT

-Module Tutorial

Hover your mouse over the three components to learn more

-[module items]: Baseline survey, 6 Micro-scenarios, Resources, Final Check

-[learn more items]: These are the modules that you will work through in order, This will show you your progress as you work through the module, This is the menu that can be clicked at any time to return to this module

USER **INTERACTION**

User hovers over components to reveal “learn more”

User clicks arrow to go to baseline survey slide

ADDITIONAL **NOTES**

-Create 3 hotspots for rectangular frames

-Emphasize frames at start of timeline

-Show explanations of components when user hovers over hotspots

-Create hotspot variable and change to true when all 3 frames have been hovered over

-Next arrow appears

**Keep progress bar and menu throughout module in top right.

Slide #: 4 Program: Mandatory Reporting Slide Title: Scenario 2

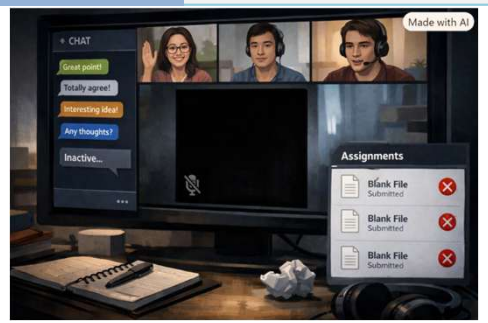

USER **SEES**

The user sees the title of the slide, an audio icon with a pointer next to it, and an image of a computer screen with a virtual class going. Next, the user sees three frames that come up one by one, highlighting the chat conversation, then a turned-off student screen, and lastly an assignments repository.

USER **HEARS**

A student in your virtual live sessions who normally speaks, contributes text insights weekly, and leaves their video feed active has suddenly shifted their behavior pattern.
For the past three consecutive sessions, they have kept their camera dark, remained completely silent in active text chats, and just submitted their third blank assignment.

GRAPHIC ASSETS

AI-generated prototype

ON-SCREEN TEXT

Scenario 2

ADDITIONAL **NOTES**

Emphasize audio icon at start of timeline
Audio plays when user clicks on icon
Emphasize frames and match them with narration
Add arrow icons

USER **INTERACTION**

User clicks on audio icon to start narration
User can jump from previous slide and to next slide using arrow icons

Slide #: 5 Program: Mandatory Reporting Slide Title: Scenario 2 Response

USER **SEES**

The user sees the instructions for this slide and then four options (buttons) beneath. They also see a back arrow and a button called “Request Hint.”

USER **HEARS**

A student in your virtual live sessions who normally speaks, contributes text insights weekly, and leaves their video feed active has suddenly shifted their behavior pattern.
For the past three consecutive sessions, they have kept their camera dark, remained completely silent in active class chats, and just submitted their third blank assignment.

Choose Your Legal Response

Commit to an action based on your instincts:

Buttons: File an immediate report directly to County DHS or Law Enforcement.

Document facts and review concerns with your site leadership.

Launch an immediate private chat thread to interview the student about home issues.

Log a zero on each assignment submission and continue monitoring trends.

USER **INTERACTION**

User can click on “request hint” if they are struggling with the scenario. User clicks on one of the four options to go to a feedback screen.

ADDITIONAL **NOTES**

Create 4 shapes then convert to freeform pick one question

For form view, make all incorrect except File an immediate report…

Update feedback layers and create triggers to show/hide between the question screen and feedback options

Create hover states for each response option on base layer

Create request hint popup

Slide #: 6 Program: Mandatory Reporting Slide Title: Scenario 2 Compliance

USER **SEES**

Black & white background office image with Post-it notes in front. Title at the top of the slide. Balance scale and folder appear in conjunction with narration.

USER **HEARS**

In Colorado, you must report when you have reasonable suspicion of abuse or neglect. A sustained pattern of complete withdrawal across camera, chat, and assignments meets that threshold and must be reported immediately. When reporting, include only objective digital facts: exact dates, chat inactivity, webcam-off patterns, and blank assignment submissions. Do not include personal opinions, interpretations, or assumptions.

GRAPHIC ASSETS

ON-SCREEN TEXT

Scenario 2 Compliance Summary

USER **INTERACTION**

The user can click on the front and back arrows to move between slides.

ADDITIONAL **NOTES**

Audio icon emphasized when slide starts

Audio starts after emphasis ends

Set icons to appear with narration when associated topics are mentioned

Slide #: 7 Program: Mandatory Reporting Slide Title: Final Assessment Q2

USER SEES

User sees a scenario question and four multiple-choice response options.

USER HEARS

GRAPHIC ASSETS

SUBMIT

ON-SCREEN TEXT

In an online message, a student says their sibling took away their phone and assigned extra chores for failing a quiz. The student asks you to keep this secret so their family doesn't get upset. What is your required action?

Report the family to DHS for emotional abuse and physical deprivation.

Document the note internally and consult your school counselor or administrator.

Promise the student you will keep the message 100% secret.

Contact the sibling directly to demand they return the phone.

ADDITIONAL NOTES

-Use built-in graded question slide (pick one) and add in question stem + options into form view. Option B = correct
-Make trigger for submit button

USER INTERACTION

The user will select one of the options then hit “submit” button to go to the next question.

Slide #: 8 Program: Mandatory Reporting Slide Title: Post Module Survey

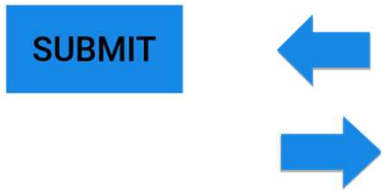

USER SEES

End of Module Survey title as well as instructions and Likert scale survey.

USER HEARS

none

GRAPHIC ASSETS

ON-SCREEN TEXT

Having now completed the module, please take a moment to re-assess your comfort level with tracking digital red flags.

Example 1/5: How confident are you in recognizing signs of abuse or neglect during online interactions such as video calls or sudden attendance changes?

USER INTERACTION

Click one rating per survey item.

Click submit to submit survey then right arrow to move to next slide.

ADDITIONAL NOTES

-This is the same survey that users will take at the start of the module, but with different instructions.

-To build, create Likert scale using the built-in survey question slide. Adjust ratings so that there are 3 options (1 = Not at all confident to 3 = Very confident)

Slide #: 9 Program: Mandatory Reporting Slide Title: End of Module/Thank you

USER SEES

End-of-module title, brief message, download certificate button and exit course button.

USER HEARS

none

GRAPHIC ASSETS

ON-SCREEN TEXT

Thank You for Safeguarding Our Students!

As virtual educators and staff, you are the digital frontline. By staying alert to online warning signs and keeping your reporting strictly factual, you protect our students and ensure our virtual school remains a safe place to learn and grow.

ADDITIONAL NOTES

-Add in certificate resource to resource bank in “player”
-Create triggers for both buttons

USER INTERACTION

User can download a certificate by hitting a button and/or exit the course with a button.
